

## **BUCKEYE EXPRESS™ HIGH SPEED INTERNET SERVICE MINIMUM EQUIPMENT REQUIREMENTS**

The following details the minimum technical requirements for all workstations and laptops that Buckeye will connect or support in conjunction with Buckeye Express High Speed Internet Service:

### **PC (Intel or AMD processor)**

#### **Processor**

- Pentium 233-megahertz (MHz) processor (faster is recommended) or AMD equivalent

#### **RAM**

- At least 128 megabytes (MB) of RAM (more is recommended)

#### **Operating system**

- Windows XP
- Windows Vista
- Windows 7
- Linux (customer supported - no operating system support available from Buckeye)

#### **Networking**

- Available Ethernet port (RJ45 connector)

#### **Wireless Networking (When applicable)**

- Existing Wireless adaptor capable of 802.11b, g, and/or n

#### **Software**

- A functional web browser (ie. Internet Explorer, Mozilla Firefox, Opera)
- Anti-virus application with current subscription to definitions (ie. Zone Alarm, Norton Anti-Virus, etc.)

### **Apple “MAC”**

#### **Processor**

- PowerPC G3 (233MHz)

#### **RAM**

- At least 128 MB of RAM (more is recommended)

#### **Operating system**

- MAC OS 7.6.1 – OS 9.x (limited technical support available due to Apple non support of operating system)
- MAC OS 10.x.x

#### **Networking**

- Available Ethernet port (RJ45 connector)

#### **Wireless Networking (When applicable)**

- Existing Wireless adaptor capable of 802.11b, g, and/or n

#### **Software**

- A functional web browser, Safari or Mozilla Firefox web browser (only if access to Buckeye’s webmail is necessary)
- Anti-virus application with current subscription to definitions
